

Finance, Accounting & HR Payroll Architecture

Module: Corporate Finance & Branch Accounts • **Version:** 2.0 • **Scope:** Multi-Branch Invoicing, Cash Drawer Z-Reports, Tiered Stylist Commissions, Indian Statutory Payroll & Unit P&L

Executive Summary & Architectural Context: The Digiflex Salon SaaS Finance & HR Module is an enterprise-grade accounting and payroll governance system engineered for single and multi-branch luxury salon chains. It unifies high-frequency daily floor cash registers (Shift opening floats, petty cash vouchers, and physical hand-count Z-Reports) with statutory tax engines (SAC 999721 service GST vs HSN 3305 retail product taxes), tiered graduated stylist commission slabs (5% → 10% → 15%), backbar chemical cost deductions, biometric attendance synchronization, and corporate banking batch exports (HDFC / ICICI CMS NEFT).

1. PRD Traceability Matrix

PRD REQUIREMENT ID	FEATURE NAME	PRODUCT REQUIREMENT DESCRIPTION	IMPLEMENTATION DETAILS IN CODE
SALO-PRD-FIN-01	Executive Finance Dashboard & Multi-Branch Matrix	8 dynamic KPI cards (Today Revenue, Invoices Issued, Refunds, Pending Settlements, Payroll Pool, Commissions, EBITDA Margin, Net GST), quick operational sub-module links, recent transaction stream, and multi-branch comparative matrix comparing all 5 branches.	Implemented in <code>DashboardPage.tsx</code> powered by <code>FinanceBranchContext.tsx</code> with branch-filtered KPIs and multi-branch health matrix.
SALO-PRD-FIN-02	Sales Receipts & GST Invoicing Ledger	Comprehensive customer sales receipts table with SAC 999721 (Services at 18% GST: CGST 9% + SGST 9%) and HSN 3305/3304 (Retail cosmetics) separation, B2B customer GSTIN tagging, multi-tender split view, and printable tax invoice dossiers.	Implemented in <code>ReceiptsPage.tsx</code> with real-time tax calculation dialog, B2B tax invoice modal, and CSV export standard.
SALO-PRD-FIN-03	Refunds & 5-Stage Approval Pipeline	5-stage maker-checker refund pipeline (Request → Review → Approval → Refund → Completed), reason classification (Duplicate, Complaint, Wrong Billing), digital wallet credit vs payment gateway reversal tender selection.	Implemented in <code>RefundsPage.tsx</code> with visual 5-stage pipeline header, manager sign-off actions, and wallet refund routing.
SALO-PRD-FIN-04	Daily Cash Drawer Closeout & Gateway Settlements	Daily register opening float (₹5,000), cash drops, petty cash expense vouchers, physical hand-count vs system expected book cash overage/shortage variance sign-off, and payment gateway 1.5% MDR + 18% GST fee reconciliation.	Implemented in <code>SettlementsPage.tsx</code> with Z-Report dialog, petty cash voucher creation modal, and gateway batch UTR ledger.
SALO-PRD-FIN-05	Stylist Commission & Incentive Engine	Tiered graduated commission slab matrix (0-50k: 5%, 50k-1L: 10%, >1L: 15%), 12% retail product upsell incentive, backbar chemical material cost deduction, and 100% direct client tip pass-through.	Implemented in <code>CommissionsPage.tsx</code> with dynamic formula calculator modal, backbar offset, and payroll posting trigger.
SALO-PRD-FIN-06	Staff Payroll & Statutory Slips (PF/ESI/PT/TDS)	Complete monthly payroll batch workflow (Draft → Generated → Approved → Paid) with 10 salary components (Basic, HRA, Travel, Commission, Bonus, PF 12%, ESI 0.75%, State PT ₹200, TDS Section 192) and printable salary slip dossiers.	Implemented in <code>PayrollPage.tsx</code> with 2-column earnings vs deductions breakdown and encrypted salary slip view.

PRD REQUIREMENT ID	FEATURE NAME	PRODUCT REQUIREMENT DESCRIPTION	IMPLEMENTATION DETAILS IN CODE
SALO-PRD-FIN-07	Corporate Payroll Bank Batch Export	4 standard export formatters: Excel (.XLSX) workbook with formula audit, CSV universal tabular import, official executive PDF, and HDFC / ICICI Corporate CMS NEFT/RTGS direct deposit batch.	Implemented in <code>PayrollExportPage.tsx</code> with branch, month, department, and employee scope filters.
SALO-PRD-FIN-08	Unit Economics & Branch P&L Profitability	Consolidated P&L net operating profit analysis, EBITDA margins (>30%), backbar inventory COGS ratio, service department contribution (Hair Care, Skin, Hair Spa, Nails), and regional benchmark comparison.	Implemented in <code>ProfitabilityPage.tsx</code> with side-by-side branch ranking and department margins.
SALO-PRD-FIN-09	Staff Financial Dossiers & Verified KYC Vault	Individual employee compensation dossiers with 4 tabbed views: Payroll history, Commission ledger, Biometric attendance/overtime logs, and verified KYC compliance documents (Form 16, Aadhaar, PAN).	Implemented in <code>EmployeeFinancePage.tsx</code> with branch-scoped staff profiles.
SALO-PRD-FIN-10	Biometric Attendance & LOP Synchronization	Daily attendance check-in/out logs, leave entitlement tracking (Casual, Sick, Paid, Unpaid), overtime accumulation, and automatic Loss of Pay (LOP) payroll deduction calculation.	Implemented in <code>AttendanceLeavePage.tsx</code> with manual attendance logging modal.
SALO-PRD-FIN-11	Statutory Audit Reports & Financial Downloads	8 audit-ready reports: Sales Receipts & GST, Customer Refunds, Daily Settlements, Stylist Commissions, Payroll Register, Executive P&L, Salon OpEx/COGS, and Multi-Branch Benchmark.	Implemented in <code>ReportsPage.tsx</code> with instant CSV download and ZIP bundle export.
SALO-PRD-FIN-12	Chart of Accounts, Tax & Payment Gateway Config	Master settings cockpit: General ledger FY cycle, tiered commission slabs, 10 salary components, Indian GST SAC 999721 & HSN 3305, payment gateway tenders, and daily register variance tolerances.	Implemented in <code>SettingsPage.tsx</code> with reactive tabbed configuration.

2. Business Rationale & Why We Implemented Everything

A. Multi-Branch Real-Time Scoping & RBAC Perspectives

In high-growth luxury salon chains, financial opacity between individual outlets and the corporate treasury leads to revenue leakage and unverified cashier shortfalls. By implementing `FinanceBranchContext.tsx`, corporate CFOs can toggle between consolidated chain views (Mumbai, Delhi, Bangalore, Hyderabad, Bhiwandi) and branch-specific sub-ledgers. Role-based perspectives (Corporate CFO, Branch Accountant, HR & Payroll Lead, Finance Manager) ensure that staff only access authorized data.

B. GST SAC 999721 & HSN 3305 Compliance

Indian tax laws enforce a strict distinction between salon grooming services (SAC 999721 at 18% GST: CGST 9% + SGST 9% or IGST 18%) and retail cosmetic product sales (HSN 3305 / 3304). The customer receipt ledger explicitly isolates these tax components and records B2B client GSTIN numbers, enabling seamless GSTR-1 and GSTR-3B filings without manual accounting reconciliations.

C. Cash Drawer Control, Shift Closeout & Z-Report Sign-off

Salon cash drawers are vulnerable to cash shrinkage during shift handovers. Our daily register architecture mandates opening float logging (₹5,000), petty cash vouchers with authorization sign-offs, and physical cash hand-count comparisons against book revenue. Any variance requires mandatory explanation before the drawer is locked and Z-Report posted.

D. Graduated Stylist Commission Slabs & Backbar Chemical Deductions

Top colorists and stylists generate significant service volume but also consume expensive chemical products (Olaplex, L'Oréal, Schwarzkopf). Our tiered commission engine calculates progressive slabs (5% under ₹50k, 10% between ₹50k-₹1L, 15% over ₹1L) on net service sales after deducting backbar chemical material costs, plus a 12% retail upsell bonus and 100% direct tip pass-through.

E. Statutory Payroll Engine & Corporate Bank Direct Deposit

Indian labor regulations mandate strict Provident Fund (PF 12% of basic), Employee State Insurance (ESI 0.75% of gross), State Professional Tax (PT ₹200/mo), and Income Tax TDS (Section 192). The payroll engine computes all 10 standard components from biometric attendance logs and generates bank-ready CMS NEFT direct deposit batch files for HDFC, ICICI, and Kotak Mahindra Bank.

3. UI Architecture & Page Flow

- **Top Command Center & Scope Switcher:** Live multi-branch dropdown popover with active outlet badges, revenue indicators, and RBAC perspective selector in `Sidebar.tsx`.
- **Executive Dashboard (`/finance`):** 8 dynamic KPI cards, sub-module launchpad, live transaction stream, and multi-branch cash matrix.
- **Sales Receipts (`/finance/receipts`):** SAC 999721 service invoices, B2B GSTIN tagging, and thermal/A4 printable receipts.
- **Settlements & Cash Register (`/finance/settlements`):** Z-Report closing dialog, petty cash expense vouchers, and gateway MDR deductions.
- **Commissions (`/finance/commissions`):** Tiered slab calculator, backbar chemical offsets, and tip pass-through tracking.
- **Monthly Payroll (`/finance/payroll`):** 4-stage batch workflow with PF/ESI/PT/TDS deduction breakdown and PDF payslips.
- **Payroll Bank Export (`/finance/payroll-export`):** HDFC/ICICI Corporate CMS NEFT CSV batch export.
- **Profitability & P&L (`/finance/profitability`):** Unit economics, EBITDA % margins, and departmental profitability.
- **Reports & Settings (`/finance/reports`, `/finance/settings`):** 8 statutory reports and Chart of Accounts / GST configuration.
