

Brand Owner / Head Office · Packages & Memberships

Commercial Recurring Revenue Specification, Session Ledger & Multi-Tier Loyalty Engine

Executive Summary & Architecture Overview

The Packages & Memberships module empowers the Brand Owner / Head Office to centrally architect multi-service session bundles, recurring annual VIP tiers, concession rules, cross-branch redemptions, immutable session consumption audit trails, and proactive grace-period renewal pacing across all salon locations.

1. PRD Traceability Matrix

PRD REQ ID	FEATURE NAME	PRODUCT REQUIREMENT DESCRIPTION	IMPLEMENTATION DETAILS IN CODE
SALO-PRD-PKG-01	Central Packages Directory	Multi-service package catalog, bundled session counts, nominal vs selling price discounts, and CSV export.	Implemented in PackagesTab.tsx with search, category/branch/status filters, and duplicate workflows.
SALO-PRD-PKG-02	Multi-Service Package Builder	Configurable multi-service bundles, session allocations, dynamic savings computation, validity rules, and branch eligibility.	Implemented in CreatePackageModal.tsx with portaled z - [9999] modal dialog.
SALO-PRD-PKG-03	Package Dossier & Liability View	Detailed financial inspection of active packages, nominal vs selling value, guest savings rate, and outstanding unearned liability.	Implemented in PackageDetailsDrawer.tsx with financial metrics and activation controls.
SALO-PRD-PKG-04	Package Usage & Audit Trail	Client session consumption progress bars, redemption timestamps, and immutable audit logs per appointment.	Implemented in PackageUsageTab.tsx with session balance telemetry and history drawer.
SALO-PRD-PKG-05	Membership Tiers & Plans	Annual subscription tiers (Silver, Gold, Platinum, Royal Black), concession rules, and active enrolled VIP count.	Implemented in MembershipsTab.tsx with tier filtering, active member metrics, and Add Membership modal.
SALO-PRD-PKG-06	Tier Benefits Configuration	Multi-perk rule builder: Percentage discounts, complimentary services, retail concessions, and priority booking access.	Implemented in CreateMembershipModal.tsx & MembershipBenefitsTab.tsx with visual hierarchy cards.
SALO-PRD-PKG-07	Renewals & Expiry Command	Centralized tracking of expiring memberships (7d/15d/30d), unused package sessions, 15-day grace periods, and renewal modal.	Implemented in RenewalsExpiryTab.tsx with 5 KPI cards, dual sub-tables, and confirmation preview.
SALO-PRD-PKG-08	Commercial Performance Analytics	Contracted value KPI cards (₹1.38 Cr), package session burnout pacing (71.4%), and cross-branch conversion matrix.	Implemented in PackagesAnalyticsTab.tsx with 8 KPI cards and multi-branch comparison.

2. Business Rationale & Why We Implemented Everything

Field-by-Field & Feature-by-Feature Justification

Multi-Service Session Bundling Increases customer lifetime value (LTV) and upfront cashflow by packaging high-margin aesthetic protocols with routine hair and spa visits.	Dynamic Nominal Value & Savings Rate Calculates client savings in real-time (e.g. 23% savings) to make commercial offerings attractive while maintaining branch gross margin.
Immutable Redemption Audit Trails Protects brand revenue by cryptographically linking each package session redemption directly to a verified floor appointment ID.	Cross-Branch Availability Scoping Allows high-tier flagship packages to be restricted to premium branches or opened network-wide to support multi-location guest freedom.
Automated 15-Day Grace Period Pacing Prevents immediate VIP churn by offering an automated grace period and a 10% on-time renewal incentive, raising retention to 84.2%.	Deferred Revenue & Liability Tracking Tracks outstanding unredeemed session balances (₹14.2 Lakhs) to maintain accurate accounting compliance across franchise and company-owned branches.

3. UI Architecture & Page Flow

The Packages & Memberships section is organized into 6 core sub-modules synchronized via URL parameter ?tab=packages|usage|memberships|benefits|renewals|analytics:

- **Master Shell** (PackagesMasterPage.tsx): Top breadcrumb, summary KPIs (Active Packages, Enrolled VIPs), and sub-nav tabs.
- **Service Packages** (PackagesTab.tsx): Filterable bundle catalog, session allocations, and duplicate actions.
- **Package Usage** (PackageUsageTab.tsx): Client session consumption progress bars and redemption history inspection.
- **Membership Tiers** (MembershipsTab.tsx): Annual VIP plans (Silver, Gold, Platinum, Royal Black) and pricing.
- **Membership Benefits** (MembershipBenefitsTab.tsx): Benefit rules directory and visual tier hierarchy cards.
- **Renewals & Expiry** (RenewalsExpiryTab.tsx): Expiring memberships/packages and 1-click renewal modal.
- **Commercial Analytics** (PackagesAnalyticsTab.tsx): 8 KPI cards, session burnout velocity, and cross-branch matrix.
