

Brand Owner / Head Office · Staff & Human Capital Management

Architectural Specification, Field-by-Field Rationale & Multi-Branch Staff Operations System

Executive Summary & Architecture Overview

The Staff module delivers unified human capital operations for Brand Owners and General Managers. Spanning comprehensive in-page 11-tab specialist profiles, certified competency hierarchies, weekly visual shift rosters, biometric attendance logging, monthly service and retail quota matrices, automated multi-tier commission splits with assistant allocation, and floor chair utilisation telemetry.

1. PRD Traceability Matrix

PRD REQ ID	FEATURE NAME	PRODUCT REQUIREMENT DESCRIPTION	IMPLEMENTATION DETAILS IN CODE
SALO-PRD-STF-01	Central Staff Directory	Multi-location staff roster, search by Name/ID/Skill/Role, branch & status filters, onboarding modal, and non-destructive deactivation.	Implemented in AllStaffTab.tsx with master directory table, add staff modal, and status toggling safeguards.
SALO-PRD-STF-02	360° Staff Profile Dossier	11-tab in-page profile (Overview, Personal, Employment, Skills, Documents, Roster, Attendance, Targets, Commission, Productivity, Performance).	Implemented in StaffProfilePage.tsx with Back button, Profile Hero, and permission-aware employee data cards.
SALO-PRD-STF-03	Staff Performance & Leaderboard	MTD gross revenue leaderboard, client rebooking rates, retail attach, chair utilisation, and CSAT review ratings.	Implemented in StaffPerformanceTab.tsx with comparative ranking tables and period selectors.
SALO-PRD-STF-04	Weekly Shifts & Floor Roster	Interactive Mon-Sun weekly calendar grid, Morning/General/Evening/Off shift codes, shift conflict detection, and publish workflow.	Implemented in ShiftsRosterTab.tsx with clickable shift cell cycle toggles and week switcher navigation.
SALO-PRD-STF-05	Biometric Attendance & Leave	Daily biometric punch logs (Check-in/out, working hours) and leave approval workflows with reason tracking.	Implemented in AttendanceLeaveTab.tsx with sub-tabs for live logs and leave requests.
SALO-PRD-STF-06	Service & Retail Quota Targets	Dual quota tracking (Service Revenue vs Retail Sales) with live progress bars and attainment status badges.	Implemented in StaffTargetsTab.tsx with target matrix and assign target modal.
SALO-PRD-STF-07	Multi-Tier Commission & Splits	Service/product commission rules, revenue tier escalators (2%/4%/6%), assistant 70/30 splits, tips distribution, and payroll approvals.	Implemented in StaffCommissionTab.tsx across 5 sub-views with approval state actions.
SALO-PRD-STF-08	Chair Utilisation & Productivity	Active floor efficiency (% of shift hours rendering treatments), turnover buffers (+15m), and performance tier classification.	Implemented in ProductivityUtilisationTab.tsx with visual progress bars (Excellent / On Target / Below Target).

2. Business Rationale & Why We Implemented Everything

Field-by-Field & Feature-by-Feature Justification

In-Page Profile with Back Navigation

Replaces cramped popup modals with a dedicated full-page experience, allowing Brand Owners to review 11 deep-dive tabs including targets, commission, and legal documents.

Weekly Visual Shift Roster Matrix

Provides an immediate 7-day overview of floor coverage, preventing understaffed salon peak hours on weekends and scheduling conflicts.

Assistant / Team 70-30 Commission Splits

Automates fair reward distribution on complex treatments (e.g. Balayage, Hydra-Facial) where junior assistants assist lead specialists.

Revenue Tier Escalators (2% / 4% / 6%)

Incentivizes specialists to cross higher monthly revenue thresholds (₹1L, ₹2L+) with progressive commission multipliers.

Non-Destructive Staff Archiving

Deactivating an employee safely pauses active floor shift scheduling while keeping historical commission, attendance, and service logs permanently intact.

Floor Chair Utilisation Telemetry

Measures actual revenue-generating chair occupancy against scheduled shift hours to identify underutilized stations and optimize booking slots.

3. UI Architecture & Page Flow

The Staff section is structured into 7 core sub-modules synchronized with URL parameters (?tab=all|performance|roster|attendance|targets|commission|productivity):

- **Master Shell** (StaffMasterPage.tsx): Top breadcrumb, summary KPIs, and sub-nav tabs.
- **All Staff Directory** (AllStaffTab.tsx): Master specialist table with clickable names & avatars to open profile details.
- **Staff Profile Dossier** (StaffProfilePage.tsx): 11-tab in-page profile inspection with Back button.
- **Staff Performance** (StaffPerformanceTab.tsx): Revenue leaderboard, CSAT scores, and retail conversion.
- **Shifts & Roster** (ShiftsRosterTab.tsx): Weekly Mon-Sun interactive calendar grid.
- **Attendance & Leave** (AttendanceLeaveTab.tsx): Biometric check-in/out logs and leave approvals.
- **Staff Targets** (StaffTargetsTab.tsx): Service and retail quota matrix with progress bars.
- **Commission & Incentives** (StaffCommissionTab.tsx): Rules, tiered incentives, team splits, tips, and payroll approvals.
- **Productivity & Utilisation** (ProductivityUtilisationTab.tsx): Floor chair efficiency and occupancy benchmarks.
